

Use of Technology by Children

QPG Community & Sports Hub recognises that technology is an integral part of some children's lives and they use mobile phones, tablets and other devices as part of their play. However, we ask that parents do not allow children to bring in their devices.

It is our intention to provide a safe environment in which children can safely use these devices at home without having a negative effect on children, parents and staff who are safe from unwanted images being shown or recorded and inappropriately used.

Aim

Our aim is to:

Have a clear policy on the acceptable use of technology by children that is understood and adhered to by all parties concerned without exception.

QPG Hub does NOT allow children to bring technology into the setting.

This is so that we can adhere and be in line with the **NO TECHNOLOGY POLICY**

with *Wilberforce Primary School* and partners sessions at *Queen's Park Gardens*.

With this privilege comes the responsibility that the children will act in an appropriate manner and in accordance with the following guidelines:

- Children must tell a member of staff if they have been using any devices.
- Use of devices will only be acceptable during end of term parties / celebrations.
- Children must not take photos or images of others.
- Staff will discuss with the child what the expected behaviour is whilst using a device.

This will include but is not limited to:

- Not playing offensive music
- Not showing offensive images
- Not accessing terrorist or extremist material
- Only watching age appropriate clips
- Only playing age appropriate games

Should inappropriate material be found then we will follow our safeguarding procedures.

Concerns will be taken seriously, logged and investigated appropriately.

All devices are brought into the club at the owner's risk.

Use of Technology by Children

QPG Hub will take no responsibility for lost/stolen or damaged equipment.
